THINGS YOU SHOULD KNOW IF YOU HAVE AN ACCIDENT

From Lin-Mar Motors, Inc.

1. **CHECK FOR INJURIES.**
2. **DETERMINE YOUR EXACT LOCATION** – nearest major intersection and cross-streets
3. **CALL THE POLICE OR 911** and they will need to know which police department has jurisdiction, and where to send them and emergency services, if they are required.
4. **GET THE OTHER DRIVER'S INFORMATION** even if damages are not apparent. Flexible parts, used on today's vehicles, can spring back into shape and conceal extensive damage.
5. **CALL LIN-MAR MOTORS FOR A TOW AT 847-965-4200 IMMEDIATELY.** Police need to clear the thoroughfare of disabled vehicles and may require you to use the first available tow truck, but sometimes allow extra time if you have already arranged for the tow. Keep in mind that if your car needs towing, it will probably need repairs. Since most tow companies do not repair autos, you should consider the advantages of a company, which both tows and repairs cars. **LIN-MAR MOTORS, INC. can tow any size vehicle – 24 hours a day, 365 days a year.**
6. **THE LOWEST ESTIMATE IS SELDOM THE BEST DEAL.** Almost all body shops use standard databases, which include prices for replacement parts and standard times required to install them. In other words, pricing for any given operation should be similar from one shop to another. A radical price difference might indicate that a damaged part has been excluded from the estimate, or that used or after-market parts are being quoted. Inadequate repairs may compromise the safety of a vehicle or diminish the trade-in value.
